## Region N Joint Conference

On March 1st and 2nd George Mason University in Fairfax, Virginia hosted the first ever Section N-1 and N-2 Joint Conference. Current brothers and alumni came together for this “family reunion” to celebrate “the family you choose.” During the day brothers were able to take the LEADS courses of Achieve and Discover. They were also able to take a

variety of workshops from learning about retention and membership to building professional skills and community. Brothers were able to learn a lot and make new and lasting connections with other chapters while at the conference.

*Six brothers were able to make it to the conference from the Alpha Lambda Epsilon Chapter including (from left to right) Micaela Champion our Alumni Relations Chair, Rachel Pigott our Fellowship VP, Katie Holland our treasurer, Gunnar Ward our Membership VP, Cari Witherow our President, and Atticus Rice our Prime Minister.*

## Admitted Students Day

McDaniel College's first admitted students day of the year was held on Saturday March 9th. This year the college added a new event. Admitted students and their families were able to explore the forum where various clubs on campus had information tables to show what McDaniel has to offer. Alpha Epsilon Lambda also had a table where brothers explained to perspective students what APO is and the cardinal principles that we live by.

*Three of the brothers that were at the admitted students day event had fun showing off some of Alpha Epsilon Lambda's past T shirts, flashing our colors, and talking about some of our events.*

## Star Making

For this service event brothers had fun learning how to make origami stars from small strips of paper. These stars were then strung together in order to make decorations. Brothers will travel downtown later in April to hang the stars in the Boys and Girls Club of Westminster and help the kids make fun cards for their loved ones.

## Meatball Making

*Brothers Faith Young (left) and Sarah Kirk (right) stop their work to show off all the meatballs that they made!*

Last month members of Alpha Epsilon Lambda Traveled to Little Italy in Baltimore in order to help make ravioli at Saint Leo's Pandola School for the annual dinners that they hold. This month Brothers traveled to the same place, but this time to make meatballs!

## Brother of the Month: Anna Kuhn

Year: Current Sophomore  
Class of 2021

Hometown: Bel Air, MD

Major: Double major in  
biology and German

Minor: Chemistry

What APO mean to Anna:

"I only pledged last semester, but APO has been truly wonderful! It's been a great way to meet people in other departments and make connections with both the community here on campus and the community of Westminster. I do a lot of volunteering on my own time and I wanted to do more that was fun and well organized, which is why I joined APO in the first place. It really makes me feel great to spend my time with like-minded people doing some really cool stuff."

## Relay for Life: Team APO

Time is running out and Relay is just around the corner on April 26th. If you don't know, Relay for Life is a charitable event very close to the members of Alpha Epsilon Lambda. Cancer has impacted so many from Alpha Epsilon Lambda and even more from the entire Alpha Phi Omega brotherhood. With that being said, Alpha Epsilon Lambda is on the mission to help raise funds for a cancer cure. This year, our goal is to raise at least \$1500 for the American Cancer Society in the effort of finding a cure and so far we have only raised \$722. Help us make this goal possible by donating at the link below!

## Closing Remarks

Happy March,  
Alumni brothers!

This month has been both stressful and fun for us brothers on campus. We made tons of new connections with other chapters while at sectionals and even plan to do service with American University's Eta Phi Chapter coming soon in April. This month was filled with the stress of midterms and the fun of spring break. Many brothers traveled over break while some, like myself, were on campus doing work. While this month has been a little slow in terms of APO events we're excited to have a lot of service and fellowship events planned both on and off campus for the month of April. We'll also soon be initiating new brothers into Alpha Lambda Epsilon so be on the look out for that! As always if anyone has anyone questions or comments don't be afraid to reach out to me. I hope all of our alumni brothers have had a great March and thank you for your continued support!

In Leadership, Friendship, and Service,

Micaela Champion
