Closing Remarks:

I would like to start by saying I had fun holding this position. Creating the newsletter was always fun, and it was wonderful getting to know the alumni of our chapter. After elections that took place on April 26th, my position, Sergeant at Arms and Secretary has had some leadership change. Next semester, I will not be the Alumni Relations Chair; that job will be held by Erika Lucas. As for the other positions, Sergeant at Arms will be Gabi Cohen and Secretary will be Anna Huhn. All of these brothers are excellent, and I believe they perfect for APO leadership.

Furthermore, as this newsletter showcased, the new brothers look bright-eyed and bushy eared to enact our cardinal principals. Sadly they didn't get to have the full pledge experience, but they look forward to getting back to campus to see how our APO chapter runs in a normal situation. I am excited to see what new things they will bring to the group and how they will influence our dear organization.

Finals are here, which means due dates and loads of studying. The group has been silent since the beginning of May, but we are still connected. I hope that everyone stays safe and healthy, and has an enjoyable summer considering the circumstances that we find ourselves in.

Thank you, everyone, for the enjoyable experience this semester.

In Leadership, Friendship, and Service.

Jaden Jefferson
