Hello Alpha Epsilon Lambda Alum,

Happy Holidays! With November being the ending month of a crazy semester, our chapter's brothers managed to devote time to service and with brothers despite their busy schedules. National Service week kicked us off and then students began to prepare for their final exams and presentations. This semester presented many difficulties, but that did not stop the fraternity from applying itself to the utmost respects. The new brothers have settled in nicely and one has even taken a leadership position within the board. Additionally, with the election of the new board, brothers are to be expecting a great APO experience because of the hard work and dedication that is going to be put forth! Enjoy the holidays and stay safe in these unprecedented times.

In leadership, friendship, and service,
